

COMPANY NEWS

COVID-19 UPDATE - 23rd March 2020

Hello,

The rapidly changing situation due to the Coronavirus pandemic is affecting all of us.

Universal Components UK Limited are doing everything possible to minimise disruption while keeping the health and safety of our customers, suppliers and colleagues as our absolute priority.

Expected disruptions to service

We're closely following Government advice and have introduced home working for our people wherever possible.

We have robust systems and a strong IT infrastructure in place so are confident we can continue to service you in these exceptional circumstances.

Changes made

Effective immediately all new warranties and returns have been suspended until further notice.

Cut-off times have also been brought forward to 5:00pm for UK deliveries and 3:30pm for Northern Ireland and Eire deliveries.

We will keep you up to date on any further developments as they happen.

Regards
The UC Team
